

CAPTURE YOUR CUBS

BECOME YOUR OWN FAMILY PHOTOGRAPHER

BY KAYLA KELLY PHOTOGRAPHY

Photoshoot Planner

SET YOURSELF UP FOR SUCCESS

Put the work and thought in ahead of time, so that by the time you go to grab your camera, your mind will be clear and present with your kids. Utilize these note sheets to not only plan your shoot in advance, but also to take notes after the fact on how things went, what you might do differently next time, etc. This is how you're going to get better over time!

REMEMBER

1. Center your shoot around an activity
2. Pick a location
3. Consider lighting and timing
4. Declutter
5. Set your camera settings
6. Keep it fun!
